No.2 Worm Whirls

How YUCKY
is that?!

YOU WILL NEED

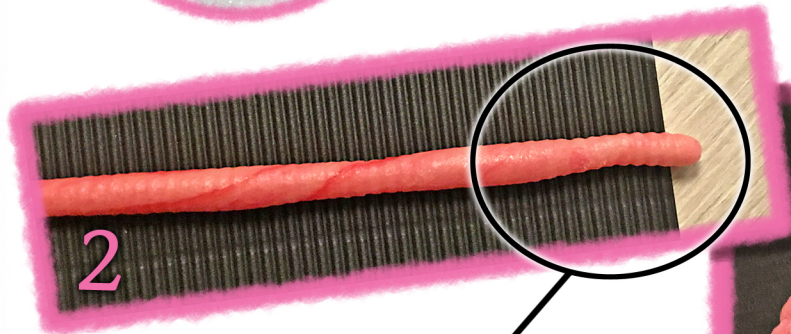

Red food colouring

Marzipan

HERE'S HOW

1. Make a ball with the marzipan, add a little red food colouring and squidge it until it turns a nice wormy pink. Then roll it on a flat surface until it is long and thin.

2. The secret to making it look ribbed like a real worm, is to finish off by rolling it on some corrugated board.

3. Then curl it round into a nice whirly wormy position.
