

BUTTERFLY FEEDER

Butterflies flit about when it's a warm and sunny day. (They don't like cold, windy and wet weather.)

Use a paper plate like this one and punch holes here near the edges.

Think of it as a clock face and make the holes at 12, 3, 6 and 9.

Tie a piece of string to each of the 4 holes.

Add fruit, like mashed-up strawberries! Overripe fruit works well.

Now hang it in the garden and look for butterflies.
